EMPIRE CITY

LINE FOR PANAMA.
The splendid steamship *Sarah Sands*, 1500 tons bur-
then, W. C. Thompson, commander, will
leave for Panama, touching at Acapulco, on
or about the 1st of May next. This ship is
unsurpassed in her cabins for convenience
and comfort, and every arrangement has
been made on the most liberal scale. The
steering has been fitted with regard to the
comfort of passengers. A separate table
will also be spread for them. The *Sarah
Sands* will be followed, on or about the
15th May, by the steamship *New Orleans*,
of 1200 tons. The above ships will run in
connection with the Atlantic boats, *Crescent
City* and *Empire City*. Through tick-
ets from San Francisco to New York, by
way of Panama and Chagres. Rates of
fare: San Francisco to Panama—First cabin
\$300; second cabin \$150. Chagres to
New York—After saloons \$125; forward
saloons \$100; lower cabin \$90. Passage and
freight, through to New York, or to the
intermediate ports, can be secured by ap-
plication to Everett & Co., Agents, Iron
store foot Sacramento st. **lviii tf**

STEAMER SENATOR

Through to Butte City, "Trin-
ity Diggins," Yuba City, Marysville and
Linda. Shortest and most direct route to
the mines.
The steamer *Senator* will leave as usual
from her berth at Clark's Point, every
Tuesday, Thursday and Saturday after-
noons at 4 p. m. for Sacramento City,
connecting there with the steamer *Star* for
Butte City, the head of navigation on the
Sacramento river, and only a short distance
from the celebrated diggings on Trinity
river; also with the steamers *Linda* and
Lawrence, which proceed up the Feather
and Yuba rivers to Linda City—the point
most immediate to the mines.
The known speed of the *Senator*, and good
accommodations of these steamers, renders
this the shortest and most convenient route
for persons going to the different mines.
Freight to Sacramento City \$2 per 100 lbs.
Measurement goods, 75c per foot.
Passage to and from Sacramento City \$25.
For further particulars, apply to
Charles McInture, Agent,
Broadway Hotel. **cxvii tf**

ASPINWALL'S Steam

Transportation Line.—For
Sacramento City, Yuba City, Marysville,
Stockton and Tuolumne City. Steamer
Hartford leaves Clark's Point every *Mon-
day and Friday*, at 6 o'clock, p. m., for
Sacramento City, Yuba and Marysville.
Steamer *El Dorado* leaves Clark's Point
every *Tuesday morning*, at 9 o'clock,
for Sacramento City, Yuba City and Mary-
ville. **cxviii tf**

DAY BOAT FOR

Sacramento City.—The
new and splendid steamer
Gold Hunter, Capt. Gouillard, will leave
her berth at Clark's point, on Mondays,
Wednesdays and Fridays, at 10 o'clock, A.
M., for Sacramento City. The *Gold Hunter*
has excellent accommodations, is en-
tirely new, and was built expressly for
the Sacramento river trade. She has two
marine engines, and her well known speed
will insure dispatch to passengers bound
to the mines. Freight to Sacramento City,
\$2 per 100 lbs; measurement goods, 75
cents per foot. Passage, \$25 to and from
Sacramento City. For freight or passage
apply to the Captain on board. **cxviii tf**

FOR ASTORIA, VICTORIA

and Nesqually.—The Pacific
Mail Steamship Company's
steamer *Caroline*, David Wood, command-
er, will be dispatched for the above places
immediately after the arrival of the U. S.
mail steamer *Oregon* from Panama.
The *Caroline* will proceed to Portland
from Astoria if there is sufficient water
in the river to allow of her doing so. For
freight or passage apply to
Alfred Robinson, agent, P. M. S. C.
foot Sacramento st. **cxlii tf**

STEAMER McKIM

—New Arrangement.—The
steamer *McKim*, Capt. Chas.
Brenham, will hereafter leave for Sacra-
mento city, from Clark's point, every
Sunday and Thursday morning at 9 o'clock.
Passage to Sacramento city \$20; freight,
heavy goods, \$2 per 100 lbs; measurement,
75 cts per foot. Passage and freight en-
gaged through to the various towns on the
Sacramento and Feather rivers.

A dark cloud now hangs over the heir of millions, and he 'the Great Western Belle'."

DAILY PACIFIC NEWS.

J. WINCHESTER, EDITOR.

Thursday, May 16, 1850.

Copies of the "Practice Act" are for sale at the desk. Early calls will be necessary, as but a limited number have been issued.

State Assaying Department.

Under the able superintendence of Mr. O. P. Sutton as Director, and F. D. Kohler as Assayer, this branch of the public service is giving increased confidence to its friends; and its utility will be more tangibly understood, when this new medium gets into the channels of business transactions as a currency that can be relied upon.

On Monday last the assaying office was first opened in accordance with the provisions of the Act. About five thousand dollars of dust was deposited the first day, for the purpose of being assayed; and for the last two days an increasing interest was manifested, by many large amounts being sent to the office.

The great public necessity for this office should make the community feel a proper degree of interest in sustaining the currency which it gives under the sanction of law. There is every guaranty to the public of perfect security, both in the skill and integrity of those who are its legal managers, and in the heavy bonds which have been accepted by the Governor, to provide a means of redress for all parties who may feel themselves aggrieved by the conduct of the official incumbents of the assaying department.

It is not to be supposed that a State assay will meet with much favor from that class who have been engaged largely in the shipping of gold dust. It takes from them the chance of speculating upon the miners and small dealers, and leaves to the latter a profit of at least two dollars an ounce to remain in their own pockets, instead of swelling the coffers of the money changers.

The immense profits arising from the purchase of gold dust in this market, has drawn the attention of capitalists in other parts of the world, who are preparing to come and share the spoil. In the New York Herald of March 28, we saw the following extract from an English paper. Speaking of California, the English editor says:

"The wealthy members of the Jewish fraternity appear to be embarking freely in the lucrative trade of trade in their favorite metal—gold—opened out to them by the recent California discoveries. Among the list of consignees in this country of gold from San Francisco, by a late arrival, the name of Rothschild appears opposite a shipment of some \$200,000; and, as at the date of the advices per Niagara, \$1,000,000 were stated as about to be forwarded home on English account, we may predict, with confidence, that another considerable amount of the same metal will find its way to the strong-box of the same eminent capitalist. The trade is too good and safe to escape the keen eye of his tribe. Unlike all other articles of import, there is always a market, with a fixed price, and an excellent customer for this article. It can be picked up at San Francisco for from \$12 to \$16 an ounce, or in English money, from £2 16s. to £3 6s. 8d. per ounce of standard fineness, whilst the Bank of England generously opens her coffers to receive all that is offered to her at £3 16s. 9d. net. The trade, we repeat, is a good one for the Rothschild tribe. It remains to be seen whether it will prove an equally good one for the bank."

It cannot be expected that persons having in view transactions planned as above, will be very zealous in sustaining State institutions which might interfere with their hopes. The people of the State of California, who have its true interests at heart, have but to rally around their state authorities, to secure a good and stable currency from the riches of the soil around them, instead of having the country drained of the precious metals and keep our business circles clouded with embarrassment.

A gentleman called at our office yesterday, in a very bad temper with the State Assayer, having in his hand a bar which had passed through the assaying process. We listened to his complaint, and called at the office, intending to let the public know the whole truth in regard to all matters of complaint or otherwise. On inquiry, we found the whole transaction of that special bar, as copied from the books, thus:

Original weight, 689 dwts at \$16.8551 00
Loss in melting, 41 dwts. 14.48280
Carat fineness, 203
Wt after melting, 648 dwts. Value, 570 54
Gain over \$1 per oz. 88 24
16 18 94

Two-thirds of the above mentioned gold was quicksilver amalgam, and the

owner stated that he had purchased the lot at \$14 an ounce. The public can see from the above, what is the result from an assay. The brokers had marked upon the bar only \$519, instead of the assay value. We should like to see the logic which would make that appear. Its mere weight as dust at \$16 per ounce, makes it worth \$518 80 before it passed the crucibles; and if it is 203 carats, we dare any one to deny its being worth the assay stamp.

We believe this law to answer a great public purpose for California, and we shall continue its advocacy, until we see that it fails to accomplish the end for which it was established.

Later from Trinidad.

The schooners Col. Taylor, Capt. Hogan, and the John Storey, Capt. N. S. Ellis, both arrived yesterday afternoon from Trinidad Bay. From the reports by these vessels, it appears that the town is increasing rapidly, and will soon be one of considerable commercial importance.

We had yesterday interviews with both Captains Hogan and Ellis, whose statements agree, that each came down the coast with a view of entering Humboldt harbor, but the terrific surf breaking on the bar at the time, deterred them from making the attempt.

Capt. Ellis informed us of the arrival at Trinidad of Rev. Mr. White, with his party, and that the citizens had resolved to settle him among them, and erect a commodious house for public worship. A meeting for religious purposes was appointed for the evening of the 15th.

Our marine reporter, Com. Martin, handed us a private letter from Frank Lemon, Esq., received by the John Storey, dated on Monday, in which he says: "The place is rapidly improving, and is soon destined to be one of considerable importance. A good road is being cut through to the mines, which, when completed, will be only thirty miles from this place."

In reference to this road, it appears from our correspondent's letter below, that an engineer had been engaged, and was at work making the preparatory survey.

The city had been regularly surveyed and laid off, and some thirty buildings already erected. The John Storey took up twenty houses, which were immediately disposed of, and were also being put up.

A few days previously a party of miners came down to the bay bringing with them large quantities of gold. They report that the diggings where they have been at work, are only two days' travel from the port of Trinidad. The following letter, brought by Capt. Ellis, affords full particulars:

TRINIDAD CITY, May 13, 1850.

To the Editor of the Pacific News.

Sir—Knowing the great interest you have always displayed in all and every improvement and progress made for the benefit of California, I hasten to inform you of the improvements already made in this interesting city and harbor.

On my arrival here early last Friday morning, I was pleasantly disappointed to find so good an anchorage and accommodation for from one to two hundred vessels which can discharge their cargoes on the beach at all times with perfect safety. On landing I found a large number of houses already up, and a still greater number of tents pitched all around the town. On the centre of the square are several excellent stores and many others are being erected; I shall have one up myself in a day or two. The climate is really beautiful and there are none of those high winds, heavy dews and chilly nights to which San Francisco is subject. The plan of the town is on file at the alcalde's office here and has already gone down, and will in a few days be presented to the inhabitants of San Francisco. People are already very actively employed in opening some of our streets. There are from three to four hundred residents here, besides the passengers of the Isabel and Col. Taylor—the first has a large number of passengers including many females, and the other some 80 to 100.

This morning presented a very busy and lively scene, both on the beach and in the square; for what with the landing, carrying and storing of goods, it gives the appearance of an old town and harbor instead of the offspring of a few days.

On Saturday evening there was a large meeting with reference to the cutting of a road direct to the mines, which it appears varies from thirty to forty miles, and has been accomplished by a circuitous route in thirty hours. They say that gold is there in abundance; I have myself seen a sample and it is really very clean and pure, in rather large pieces. There are many reports of very large quantities having been dug up by one or two companies—they say as much as seventy thousand dollars by only one of them. Many by the late arrivals are preparing to go to the mines already—I have no hesitation in saying that if only a portion of the reports from the mines be true, that this is bound to be a very important town and harbor. They have it in contemplation of building a landing pier out into the harbor and I have no doubt in a few days it will be set on foot, either by a joint stock company or private speculation.

I shall continue to give you such further information as opportunity serves. Yours, very respectfully,

MAURICE A. FRANKLIN.

The Santa Cruz Murder.

Our readers will recollect that a statement appeared in this paper some time ago relative to an occurrence near Santa Cruz. It seems that our information was not wholly correct. We publish the following correction of the history of the transaction.

To the Editor of the Pacific News:

Sir—We have seen with great regret in your paper of April 27th, an article relating to the tragic occurrence in Santa Cruz.

Satisfied from the high standing of your paper, and of yourself as a high minded gentleman, that you have been misinformed with regard to that affair, we request that you will give place to the following:

The article was evidently intended to wound the feelings of an already much injured and outraged family, and the writer or party who furnished you such information was either grossly ignorant of previous transactions, or wished maliciously to hurt the feelings of the survivors.

In the first place, Miss Mary Ann Bennett was honorably acquitted from having been accessory to the flight of Mrs. Graham, and not for want of proof as stated in that article; and in the next, far from any lover being concerned in the case, we, of Santa Cruz, have never heard a word of slander against the wife of Capt. Graham until she disappeared. Since then we have had nothing but vague conjectures; but in no case has anything been said against her private character.

We forward you also a more detailed description of Jesse J. Graham, satisfied that you will publish it to forward the ends of justice.

Jesse J. Graham is about six feet high, well built, square shoulders, and has lived some years in Texas. He has thin lips and is flat mouthed—wears his hair long, and has three red marks like cherries on his forehead, which he generally keeps covered with his hair. He has rather a down look, and is rough in his manners—he has not a prepossessing appearance. It is supposed that he went to the lower Pueblo, where he has friends.

Jackson Bennett offers two thousand dollars, and the county of Santa Cruz offer one thousand dollars for his apprehension.

MANY CITIZENS OF SANTA CRUZ.

Since the above was in type, we have received a letter from Mrs. Bennett, the mother of Mrs. Graham, relative to the same matter, from which the following are extracts:

SANTA CRUZ, May 7, 1850.

Mr. Editor—I see a communication in your paper of April 27, headed "Tragic Occurrence near Santa Cruz." I feel that that communication does injustice to my family. My daughter Catharine, the wife of Isaac Graham, gave the box containing the dead child to her sister Mary Ann, and requested her to take it to her mother—nor did Catharine take it from the trunk containing Graham's money, but from a box containing her own clothes, where it had been since it had been in existence. It is likewise a mistake that Graham found the box in my house when he came with his search warrant—some days afterwards, he heard of the box, and obtained an order from the Alcalde and had it placed in his (the Alcalde's) possession—and this was the first time, as I believe, Graham ever saw that box; for though he was at home the night Catharine gave birth to said child, yet he left early in the morning; so that there is nothing connected with that box that will show that Mary Ann knew that Catharine took Graham's money or any part thereof—nor did Graham produce any proof upon the subject, save that Mary Ann is the sister of Catharine, and was staying with her sister the week before she left. It is also untrue that Catharine took a lover with her, or that she left for that cause.

When Isaac Graham married her, he passed for a single man; yet it turns out that his first wife is still living, if his son Jesse can be believed. Whether or not the discovery of this fraud would be adjudged sufficient cause for her conduct, I am sure that if the community had heard a certain conversation between a father and son, which Catharine Graham happened to overhear, they would justify her conduct to the fullest extent, and she would not be suspected of having a lover. The statement that my daughter has a lover with her, I believe to be false and pronounce it such, although she went away without my assistance or advice.

DEPARTURE OF THE STEAMER.

The Isthmus left last evening with a good passenger list. She was visited officially during the day, by the Inspectors of Steamboats, when every facility was given those officers in the performance of their duties under the State authority. In every respect she was found to be in accordance with the law, thus falsifying the rumors that had been circulated of her unseaworthiness.

SOMETHING TO LAW ABOUT.—A party of miners on Long's bar, becoming dissatisfied with each other went into court the other day to settle their difficulties, when it was proved to be a very common thing for the party, for men to take out eighty old ounces of dust per day.

The new steamer "Governor Dana," when light, draws but fifteen inches of water, so we are told. This being the case, she will be able to keep up her trips from Sacramento to Yuba city and Marysville the whole summer, a matter of vital importance to the up river towns.

The United States Revenue Cutter Polk, was to have sailed from New York on the first of April for this port. It is hinted that upon her arrival she is to be converted into a Custom House.

Common Council.

BOARD OF ALDERMEN.

Wednesday evening, May 15.

After the reading of the minutes of the last sitting, and other usual preliminaries, the President announced the presentation of petitions as next in order. The following petitions were then read:

Dr. B. F. Edwards, for city physician. For grading Broadway from Sansome street east.

For Jackson street, from owners of property.

For appointment as keeper of city prison, —Wellton.

James E. Wainwright, for city auctioneer.

J. L. Folson and eighty-five others, organized as a fire company, for engine and house near central wharf—referred to chief engineer.

John Vandewater, to be retained as superintendent of repairs of public buildings.

The above petitions being referred to the appropriate committees, the President announced the report of committees as the next in order.

The Finance Committee, to whom was referred the petition of the judges and inspectors of the late elections, for \$100 per day, reported an ordinance to pay the same—passed by the board.

Mr. Gillespie reported as having called upon the collector of the port in relation to licensing boats. The collector showed his authority; but the committee recommended the city attorney to report upon the same to the Council, as it is believed to have been repealed.

Committee on Ordinances reported that the Board of Assistant Aldermen had concurred in the following ordinances, which only await the signature of the Mayor to take effect, viz:

An ordinance in relation to obstructions and nuisances on streets.

An ordinance on encroachments upon the streets.

An ordinance in relation to the time the city Assessors are to make reports.

An act in relation to the extinguishment of fires.

The Board of Assistant Aldermen did not concur in the following ordinances, which the Board referred back to the Committee on Ordinances, to act as a joint committee with a like committee of the other house:

An ordinance for security against fire.

An ordinance against drunkenness.

An ordinance defining the powers and duties of Harbor Master.

On motion of Alderman Selover, the ordinances concurred in were ordered to be published.

The President laid before the Board, the following bills for work and labor performed for the city, presented by the Superintendent of Repairs, viz:

L. C. Stebbins, \$1142.37; for carpenter work, \$1017.25.

Cross, Hobson & Co., \$116.20, for materials furnished.

J. P. Simpson, \$1200 for hauling, at \$50 per day.

The above were referred to the proper committees.

Ald. Selover proposed to raise a loan for sixty days, to pay off the creditors of the city who were depending upon their labor for support, and needed the funds. Not acted upon.

The Committee on Public buildings asked for a further time to report. Agreed to.

Ald. Gillespie moved that all sales of city lots by the late Ayuntamiento be confirmed by the Committee. Referred to Judiciary Committee.

On motion of Ald. Gillespie, the Special Committee appointed to examine into the acts of the late Ayuntamiento, were empowered to employ a clerk, and called upon to report within thirty days.

Ald. Gillespie reported a resolution that two Fire Wardens be appointed for each ward, to see that the building and fire ordinances are complied with.

Ald. Gillespie made a motion that the County Surveyor be instructed not to survey any Colton grants.

This resolution was warmly discussed. Ald. Stuart being opposed.

On motion of Ald. McInturn, it was referred to the Judiciary Committee.

Ald. Selover offered a resolution that an election be held to fill a vacancy in the Board of Aldermen, ten days from the 16th inst. No action upon it.

Adjourned to Friday evening next, at 7 o'clock.

ASSISTANT ALDERMEN.

After the reading of the minutes of the last meeting, a message was received from the Mayor, returning an ordinance for informality.

Several communications were received; but as they were not read, their import is unknown.

A communication of Wm. P. Humphreys, candidate for City Surveyor, was referred to the Committee on the appointment of Officers.

Ald. Botts, from the Committee on Ordinances, reported a substitute for the ordinance originating in the other Board, for the prevention of riots, &c. The report was adopted.

Also by the same, the original ordinance in relation to the City Hall, with a single amendment. Adopted.

Resolution by Ald. Botts, for the reconsideration of the ordinance empowering vacancies to be filled by a joint vote of both. Several long and edifying speeches were made on the subject, and the whole matter was declared out of order.

Alderman Wilson called up the ordinance concerning the duties of Harbor Master. Concurred in.

Ald. Sharon presented an ordinance to prevent the galloping of horses through the streets. Referred to the Committee on Ordinances.

The bill of the judges and inspectors of the charter election as passed, was received from the upper Board, and referred to a special committee of Messrs. Maynard and Botts.

Resolution by Ald. Potts, requiring each city officer to report to the Recorder, or City Attorney, any violations of City Ordinances.

Adjourned till Friday evening.

The Temperance Cause.

The public will perceive that attention is awakening to this great cause in California. This news will bring hope to the friends of many a sojourner here, who is followed by the anxious solicitude or those who tremble for his fate in a land surrounded with the temptations that California presents. An organization has commenced in this city, which is bound to take a deep hold in this community. We copy below an abstract of the proceedings of a meeting held last Sunday evening, at the Methodist church. We regret that our want of space precludes its entire insertion.

The proceedings of the evening were opened with singing by the congregation, and prayer by the Rev. J. Rogers. He then took a hasty review of the doctrine of individual influence and individual responsibility, and closed by exhorting each and all to make an individual united effort to stem the flood of evil that has so long been sweeping over us, and to thus lay the foundations of society here, on a more lasting basis.

He was followed by T. J. Dryer, who is an experienced speaker on this question. He argued the case nobly. He spoke of the thousands of hearts in the older states, now throbbing for the dearest interests of those they love. With what anxiety they watch the arrival of each mail, to see if the long absent loved ones have still withstood the temptations which they know exist in California. They demand our protection for their sons or brothers. They have a right to ask our aid to shield and save.

This being the first public meeting, and designed rather to feel the public pulse than otherwise, there was no organization, no officers, no written pledges provided; therefore it was proposed to dismiss the assembly without asking for signatures; but "no!" "no!" came up from several voices. A pledge was written out, and in a few minutes some seventy names were obtained.

Rev. Wm. Taylor next made a few remarks with a view of ascertaining the sense of the meeting. The people are ready for the work. The victims of intemperance are many. In the shape of once promising young men, now wrecked and ruined, they throng in all our streets, and fill our hospitals. These victims have been telling "temperance tales" at their every appearance on the street, for these long months past. The heart of piety and philanthropy was made to bleed at the sad spectacle. The better class of the community longed for a change, but saw little cause to hope.

"San Francisco must be given up to gamblers and drunkards! San Francisco must be the scene of constantly recurring wrecks of all that is good and noble in the heart of man." In the midst of such sad musings it is announced, "there will be a temperance meeting." Every thing at present indicates that hundreds will hail the movement with joy, and thank God for putting it into the hearts of his people to get up the meeting of last Sunday evening. Yours, &c., DIEGO.

THE STEAMER GOLD HUNTER.—This

fine boat, on the few trips she has made to and from Sacramento City, has proved herself equal in speed to any craft upon our waters. We understand she made a trip down in a little over seven hours. Her officers are gentlemen who are becoming exceedingly popular by their polite attentions to the wants and comforts of the traveling public. The Gold Hunter is a day boat, making her regular trips to Sacramento on Mondays, Wednesdays and Fridays, returning on the intermediate days.

BERFORD'S EXPRESS.—We are again indebted to the Express of Messrs. Berford & Co., for the early receipt of letters, &c., from San Jose. As there is a daily stage to the Pueblo, and only a weekly mail, it will at once be seen that Berford is a real benefactor to all who have business or correspondence with the capital, and we commend him to the confidence of the public, which his attention and enterprise so richly deserve.

GOLD DUST.—Though, for the reasons already given, the Isthmus took a comparatively small amount of "dust," yet our friends, of Adams & Co's. Express, were as usual the largest shippers, the amount sent forward by them being \$85,000, or nearly one-half the whole amount.

PACIFIC TRACT SOCIETY.—A quarterly meeting of the Pacific Tract Society, organized on 24th February last, will be held at San Jose, on the 16th of May instant, at which addresses will be delivered by clergymen of the different Christian denominations and others. The public are respectfully invited to attend.

By order of the Board,
T. I. NEVINS, Cor. Sec'y.

THE Brooklyn United Mining Co. will take notice that we have received per Emerald, and hold to their order on their fulfilling the engagement made with A. Karshudt, Esq. An invoice of groceries, &c., as per schedule in contract.

ROBERT WELLS & Co.

FREIGHT NOTICE.—Steamer Gold Hunter, for Sacramento City. Shippers by this boat can have their goods lightered, free of charge, by leaving their orders with Capt. Lothrop, on board storeship JANET, at Clark's Point.

FREIGHT NOTICE.—All freight per steamer Gold Hunter, for Sacramento city, will be received on board the store-ship at Clark's point, free of charge for storage. To prevent mistakes, shippers will please mark their freight, "per Gold Hunter."

WANTED.—60,000 feet lumber, immediately. To be delivered at San Francisco, by the steamer Seneca, in order to make a few repairs, will discontinue her trips for a few days.

COMMERCIAL NEWS.

SAN FRANCISCO MARKETS.
Wednesday Evening, May 15.

Prices for flour show a slight decline; transactions in this article are less numerous than heretofore. In large quantity, whole sacks are offering at 12.50, and smaller lots at \$13. Sales of hf sacks were to-day closed at 6.62 and 6.87, as also some limited sales of whole sacks at \$12. Bricks maintain the recent advance; sales yesterday floated at \$52.50; also, afloat, at \$55; some sales at nearly same prices, have been closed, deliverable ashore. A few sales of sperm candles, in small lots, have been to-day made, at 66 cts. per hundred lbs. Saleratus ranges from 30 to 33c. per lb; sales to-day at former figure. Transactions in liquors are light and at low prices, except for brandies. St. Estephe claret, not a very good article, sold to-day at 4.80; schiedam gin, per case, at 4.75; Sicily Madeira, 75c. per gal; brandies, one-eighth casks 1.35 per gal.

Improved demand for Sydney coal has raised prices, superior kinds being held to-day afloat from \$33 to \$35; poor article, for blacksmiths' use, &c., \$25.28.

At 7 o'clock last evening, the steamer was on the point of departure.

The following statement of the market at Trinidad, is important and interesting:—

Trinidad Market, May 13, 1850.

Beef, \$20; potatoes, 40c; prime pork \$45; flour, per cwt, \$11; salt, none; bread, good article, 15c; pepper, per lb, \$1; ham, scarce, 75c; spices, none; mackerel, \$3.50; brandy, best, \$8; Tongues, per lb, 62c; rum, \$4; sugar, 40c; gin, case \$36 per doz, per gal, \$4; coffee, 40c; claret, \$2; per doz, tea, \$1; port, per gal, \$6; rice, 15c; sherry, none; molasses, \$2; ale, scarce and in demand; porter, do; butter, \$2; champagne, \$40 per doz; cider, per doz, \$12; cherry brandy, do, \$8; hardware, scarce and high; axes, none, in great demand, \$8; broad axes, none, great demand; pickles, per gal, \$4; lumber, per m, \$200; cigars, 14c; whisky, per gal, \$2.50; soap, 12c; chalk, none; corn meal, none.

We would add, that there is, at present, but a small supply of provisions now on hand, as most of the parties here brought only from 30 to 60 days provisions with them, which have now nearly run out. Carpenters and mechanics can always find constant employment, at good wages, and it would be well for men who are now idle at San Francisco, to pack up their tools and start for Trinidad.

There are some twenty or thirty frame buildings here, ready to be put up, but, for the want of carpenters, they will have to remain on the beach until the necessary aid arrives. Materials for gold digging will be in great demand in a short time; as we expect a great rush for the mines as soon as we shall have opened our wagon road. Lighters for landing goods are much needed, and will pay well to any one wishing to send a few of them up this way. Chalk white breads, for the Indian trade are greatly wanted here; there is not a pound of them in the place, and they will command almost any price.

ON BOARD SCHOONER JOHN STORY.

TAINITY BAY, May 9th, 1880.

W. E. the undersigned, passengers on board the schooner John Story, from San Francisco, bound for Trinity Bay, do hereby testify to the capabilities, gentlemanly demeanor, and perfect seamanship of our captain, N. S. Ellis, who, notwithstanding the unfortunate gales with which our vessel was overtaken, the continual adverse winds, and a very severe illness of shaking ague with which he was attacked, and which unfortunately laid him on a bed of sickness for nearly a week, he yet, after surmounting all difficulties, has succeeded in landing us safely at the place of destination, after a voyage of sixteen days. And, we are induced to attach our signatures as a proof of our perfect and entire satisfaction of our voyage; and that the Captain has in every way exerted himself for the benefit of all concerned.

And we further beg to testify to the urbanity and gentlemanly treatment of our supercargo, Mr. Adrian H. Gildemeester, whose exertions under the trying circumstances in which we, as passengers, were placed, were unremitting; and his running the vessel into Fort Ross, not only met with our entire satisfaction, but added incalculably to our comforts.

Signed—Maurice A. Franklin, J. N. Cardozo, Armand Hain, E. J. Landroby, J. L. Laver, Lavery Barberin, T. Tean, Finance Marcelly, M. Grove, Henry L. Lerman, J. E. Lindenberg, J. Clark.

EMPIRE CITY.

FOR Sonoran Camp, Wood's Diggings, Sullivan's, Hawkins' and Don Pedro's, Bars, head waters of Tuolumne, Merced, and Mariposa rivers; also, to head waters of San Joaquin and Kings Rivers. From the Passages to Empire City, Tuolumne, DURFEE & TOWNSEND have established a daily line of sailing vessels from San Francisco to the above city, situated on the south-easterly bank of the Tuolumne river, thirty-five miles above its mouth, and are prepared to carry freight or passengers.

This route is the only one which can be really said to extend, by water, to the very gold field. The city stands at the head of navigation on the Tuolumne river, where the low hills of the Sierra Nevada meet the plains of the San Joaquin, and is not only accessible by sufficient water at all seasons of the year, but the roads to the mines, from that point, are good in wet or dry weather. Goods shipped to Empire City, Tuolumne, save from 25 to 60 miles of land carriage over any other depot for that gold region, avoiding soft roads, expensive ferrage, and personal discomfort.

Persons shipping goods, or taking passage, may rely upon promptness in dispatch, speed in transit, and great saving in time and expense.

For freight or passage, apply to messrs. Turner, Fish & Co., foot of Jackson street, San Francisco, or to the subscribers, Empire City, Tuolumne, April 20, 1850.

cxliii f Durfee & Townsend.

EMPIRE AND CRESCENT CITIES.

THE survey of this town being completed at the head of navigation on the Tuolumne river, and numerous lots sold and houses erected, designed originally to bear the name of Crescent city, the subscribers, owners of lots in said town, learning that a plot of ground on the northwesterly bank of said river, two miles below, surveyed and laid out last year, still insists upon its rights and advantages as a place for a city, have concluded to leave to the town plot alluded to the beautiful name of Crescent city, and adopt one quite as appropriate, and not so beautiful. Henceforth, therefore, we claim the name of Empire city. The map will be deposited in the proper offices, and the change in name noted.

Empire city stands on the southeasterly bank of the Tuolumne river, and is the only point accessible by water at all seasons, immediately contiguous to the gold fields of Tuolumne, Merced, Mariposa and San Joaquin rivers. It is at the head of navigation on the Tuolumne river, 35 miles from its mouth. Those persons wishing a settlement in the country are desired to visit it, and examine its advantages over any of its competitors. Signed—Philo Durfee, Edwin D. Townsend, Wm. J. Marcy, W. H. Willson, Joseph E. Miller, Wm. M. Rowlett, Thomas J. L. Smiley, David Turner, Edward S. Townsend, Edward Conway, Henry E. Perrine, J. B. Latimer. cxliii v

NEW DAILY Evening Paper in San Francisco—ROBERT D. FOX proposes to establish a daily newspaper in the city of San Francisco, to be issued every afternoon. The design of the paper will be to afford a reliable medium of information on all subjects of general and local interest; also to give full and accurate commercial and shipping intelligence up to the hour of publication each day. In a commercial community like ours, the utility of an evening paper, that will place the transactions of the day before the public immediately, must be apparent.

While the principal aim will be to give to the patrons of the proposed paper all the advantages of a strictly business publication, it should be understood that on questions of a political character, it will always be found a decided advocate of the principles of the Union.

The first number will appear on or about the first day of June next.

TERMS—\$25 per annum, when delivered to city subscribers at their residences, or \$20 when mailed—payable in advance. Advertisements inserted at the usual rates. cxliii f
